

	AR	AD	ADX	AMP	AI	AUL
	Classic, easy start. Best for: Light to medium duty, general purpose loads. Offered in 5-30 HP.	Digital, voltage balanced for CNC – Best for: Any load, especially resistive, rectified and computer loads such as CNC, VFD, EDM, battery chargers. Offered in 5-75 HP.	Digital, Hard Start for demanding loads – Best for: high inertia/ friction loads such as Pumps, Fans, Compressors, Blowers, Dust Collectors, Fly-wheels. Offered in 5-300 HP.	The AMP Mobile rotary phase converter is plug-and-play ready for a quick and cost-effective installation. Equipped to run 208-250V equipment in three tiers. Offered in 5, 10, and 20HP	AI Industrial was designed specifically for the demands of industrial and agricultural applications. Our AI Industrial digital phase converter is perfect for your industrial applications, including grain drying and irrigation machinery. Offered in 20-300 HP.	UL licensed units may be required by your state or local inspector. If you require a UL licensed unit our AUL model is the right model for you delivering all the power and features of our ADX and AI units. Offered in 5 - 300HP.
